# AGRICULTURAL SHELTERS

## TYPE MULTI\_10X12

*multi* 12/10

- The MULTI\_10X12 storage shelter is mainly dedicated for storing agricultural equipment, agricultural products and building materials.
- Shelters are available in two versions of usable height: MULTI\_10X12/3,5 – 3,5m, MULTI\_10X12/4,5 – 4,5m.
- The shelter has a modular structure, that is why it can be adapted to the customer's needs and easily expanded if necessary.
- Structure of the shelter is hot dip galvanized.
- The roof of the shelter is covered with 0,7mm thick galvanized trapezoidal sheets of steel grade T50. Screens and flashings are made of 0,7mm thick varnished sheets of steel in silver colour. The fasteners are made of 2,5mm thick and 1,5mm thick galvanized sheets of steel.
- The shelter can be encased with the walls. The walls of the shelter are made of trapezoidal sheet of steel grade T35. The walls can be fitted with transom windows and a gate.
- There is a possibility of a different combination of shelters on individual customer request if it is possible in terms of design solutions and if it is possible in accordance with the technology of manufacturing.
